Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Grapefruit Reg. 27]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.379 **Grapefruit Regulation 27.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening

between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 17, 1963, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750–51.783 of this title).

(2) During the period beginning at 12:01 a.m., e.s.t., September 23, 1963, and ending at 12:01 a.m., e.s.t., October 7, 1963, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 1 Russet;

(ii) Any seeded grapefruit, grown in the production area, which are smaller than $3^{15}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit; or

(iii) Any seedless grapefruit, grown in the production area, which are smaller than $3^{9}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit.

[Export Reg. 8]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Export Shipments

§ 905.380 Export Regulation 8.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of exports of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of grapefruit, grown in the production area, are subject to grade and size limitations on shipments from the production area to any point outside thereof in the continental United States, Canada, and Mexico; the recommendation and supporting information for the grade and size limitation hereinafter prescribed for exports for grapefruit, other than to Canada and Mexico, were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 17, 1963; such meeting was held to consider recommendations for regulations on exports, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, and standard pack, as used herein, shall have the same meaning as is given to the respective term in the revised United States Standards for Florida Grapefruit (§§ 51.750–51.783 of this title, 26 F.R. 163).

(2) During the period beginning at 12:01 a.m., e.s.t., September 23, 1963, and ending at 12:01 a.m., e.s.t., July 31, 1964, no handler shall ship to any destination outside the continental United States, other than to Canada and Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 2 Russet; or

(ii) Any grapefruit, grown in the production area, which are of a size smaller than $3^{5}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of grapefruit smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said revised United States Standards for Florida Grapefruit.

[Orange Reg. 27]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.381 Orange Regulation 27.

(a) *Findings.* (1) Pursuant to the marketing agreement as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will establish and

maintain such minimum standards of quality and maturity and such grading and inspection requirements as will tend to effectuate such orderly marketing of Florida oranges as will be in the public interest; will tend to effectuate the declared policy of the act; and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, including Temple oranges, grown in the production area, are presently subject to regulation by grade and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 17, 1963; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; the provisions of the act require that the minimum standards of quality and maturity, as set forth herein, be made effective when the seasonal average price to growers for such oranges will exceed the parity level specified in section 2(1) of the act; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth, and at the commencement thereof, so as not to permit the unrestricted shipment thereafter of Florida oranges as such unrestricted shipment would not be conducive to the orderly marketing of such oranges as will be in the public interest and would not tend to effectuate the declared policy of the act; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title).

(2) During the period beginning at 12:01 a.m., e.s.t., September 23, 1963, and ending at 12:01 a.m., e.s.t., October 7, 1963, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, grown in the production area, which do not grade at least U.S. No. 2 Russet; or

(ii) Any oranges, grown in the production area, which are of a size smaller than $2^{8}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos: *Provided,* That in determining the percentage of oranges in any lot which are smaller than $2^{8}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2^{14}/_{16}$ inches diameter or smaller.

[Valencia Orange Reg. 65]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.365 Valencia Orange Regulation 65.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908; 27 F.R. 10089), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 19, 1963.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., September 22, 1963, and ending at 12:01 a.m., P.s.t., September 29, 1963, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 650,000 cartons;

[Lemon Reg. 81]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.381 Lemon Regulation 81.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–

674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such lemons as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held, the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 17, 1963.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., September 22, 1963, and ending at 12:01 a.m., P.s.t., September 29, 1963, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 172,050 cartons;

(iii) District 3: 23,370 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

SUBCHAPTER E—AIRSPACE [NEW]

[Airspace Docket No. 63–CE–15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Control Zone and Transition Area

On May 18, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 5023) stating that the Federal Aviation Agency proposed to alter the Scottsbluff, Nebr., control zone and transition area.

Interested persons were afforded an opportunity to participate in the rule-making through submission of comments. All comments received were favorable.

Subsequent to publication of the notice, the prescribed VOR instrument approach procedure at Scottsbluff was altered to specify a final approach course based on the Scottsbluff VORTAC 259° instead of 260° True radial. This action requires a one degree change in the alignment of the control zone extension and the 700-foot floor portion of the transition area from that proposed. Such action is taken herein.

The substance of the proposed amendments having been published and for the reasons stated herein and in the notice, the following actions are taken:

1. In § 71.171 (27 F.R. 220–91, November 10, 1962) the Scottsbluff, Nebr., control zone is amended to read:

Scottsbluff, Nebr.

Within a 5-mile radius of the Scottsbluff Municipal Airport (latitude 41°52'30" N., longitude 103°35'40" W.), and within 2 miles each side of the Scottsbluff VORTAC 259° radial, extending from the 5-mile radius zone to the VORTAC.

2. In § 71.181 (27 F.R. 220–139, November 10, 1962) the Scottsbluff, Nebr., transition area is amended to read:

Scottsbluff, Nebr.

That airspace extending upward from 700 feet above the surface within 5 miles NW and 8 miles SE of the Scottsbluff VORTAC 211° and 031° radials, extending from 7 miles NE to 13 miles SW of the VORTAC; within 5 miles S and 8 miles N of the Scottsbluff VORTAC 259° and 080° radials, extending from 4 miles W to 13 miles E of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within a 20-mile radius of the Scottsbluff VORTAC.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

These amendments shall become effective 0001 e.s.t., December 12, 1963.

Issued in Washington, D.C., on September 16, 1963.

H. B. HELSTROM,
Acting Chief, Airspace Utilization Division.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

Alteration of Control Zone

The purpose of this amendment to § 71.171 of the Federal Aviation Regulations is to alter the Denver, Colo., control zone.

The Denver control zone is designated, in part, with reference to the Denver radio range north course. The Federal Aviation Agency has scheduled the conversion of this facility to a combined transcribed weather broadcast station and nondirectional radio beacon on or about December 12, 1963. Action taken herein reflects this change. Controlled airspace requirements for this area will be reviewed at a later date under the CAR Amendments 60-21/60-29 implementation program.

Since the change effected by this amendment is editorial in nature and imposes no added burden upon the public, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, § 71.171 (27 F.R. 220-91, November 10, 1962) is amended as follows: In the Denver, Colo., control zone, "and within 2 miles either side of the Denver radio range north course extending from the 10-mile radius zone to 13 miles north of the radio range." is deleted and "and within 2 miles each side of the 002° bearing from the Denver RBN, extending from the 10-mile radius zone to 13 miles N of the RBN." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

This amendment shall become effective 0001 e.s.t., December 12, 1963.

Issued in Washington, D.C., on September 16, 1963.

Acting Chief,
Airspace Utilization Division.

[Airspace Docket No. 63-WA-65]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND REPORTING POINTS [NEW]

Designation and Revocation of Reporting Points

The purpose of these amendments to §§ 71.211, 71.213 and 71.215 of the Federal Aviation Regulations is to revoke the Whittier, Alaska, VHF and L/MF intersections and designate the Palmtree, Hawaii, VHF intersection as reporting points. Air traffic control requirements periodically change with regard to specific reporting points due to modifications of operating procedures or alterations to airway configurations. Recent changes of this nature obviate the requirement for the Whittier VHF and L/MF intersections as reporting points and require that the Palmtree VHF intersection be designated as a reporting point.

Since these amendments are procedural in nature and do not involve the designation of airspace, notice and public procedure are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical

charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing, the following actions are taken:

1. In the text of § 71.211 (27 F.R. 220–174, November 10, 1962) "Whittier INT: INT Anchorage, Alaska, 118° radial, NW course Hinchinbrook, Alaska, RR." and "Whittier INT: INT NW course Hinchinbrook, Alaska, RR, SE course Anchorage, Alaska, RR." are deleted.

2. In the text of § 71.213 (27 F.R. 220–175, November 10, 1962) "Whittier INT: INT Anchorage, Alaska, 118° radial, NW course Hinchinbrook, Alaska, RR." and "Whittier INT: INT NW course Hinchinbrook, Alaska, RR, SE course Anchorage, Alaska, RR." are deleted.

3. In the text of § 71.215 (27 F.R. 220–176, November 10, 1962) "Palmtree INT: INT Molokai, Hawaii, 268°, Lanai, Hawaii, 304° radials; V–2 NW bound." is added.

(Sec. 307(a) 72 Stat. 749; 49 U.S.C. 1348)

These amendments shall become effective 0001 e.s.t., November 14, 1963.

Issued in Washington, D.C., on September 16, 1963.

Acting Chief,

PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND REPORTING POINTS [NEW]

Designation of Transition Area; Modification

On August 28, 1963, there was published in the FEDERAL REGISTER (28 F.R. 9425) an amendment to § 71.181 of the Federal Aviation Regulations. This amendment, in part, designated a transition area at Bloomington, Ind.

Subsequent to the publication of this amendment, it was noted that the controlled airspace floor was omitted in the description of the Bloomington transition area. Therefore, action is taken herein to designate the Bloomington transition area as extending upward from 700 feet above the surface.

Since the change effected by this amendment is editorial in nature, notice and public procedure hereon are unnecessary and the effective date of the Final Rule as initially adopted may be retained.

In consideration of the foregoing, effective immediately, Airspace Docket No. 63–CE–20 (28 F.R. 9425) is hereby modified as follows: In the description of the Bloomington, Ind., transition area "Within a 5-mile radius" is deleted and "That airspace extending upward from 700 feet above the surface within a 5-mile radius" is substituted therefor.

Title 29—LABOR

Chapter IV—Office of Labor-Management and Welfare-Pension Reports (Labor-Management Reports), Department of Labor

SUBCHAPTER A—REGULATIONS

PART 404—LABOR ORGANIZATION OFFICERS AND EMPLOYEES REPORT

On October 26, 1962, notice was published in the FEDERAL REGISTER (27 F.R. 10459) that the Secretary of Labor proposed to amend Subchapter A, Chapter IV, Title 29, Code of Federal Regulations, by adding thereto a new Part 404 in order to provide forms and regulations governing reporting under section 202 of the Labor-Management Reporting and Disclosure Act of 1959 (73 Stat. 525, 29 U.S.C. 432).

The notice provided a period of fifteen days within which interested persons might submit data, views or arguments pertaining to the proposed regulations. The period having expired, and after consideration of all relevant matter received in response to said notice, it is concluded that the regulation should be adopted as proposed with the following amendments: (1) The proposed § 404.5 setting out exceptions from the requirements for reporting is deleted because it is largely duplicative of instruction concerning exceptions from reporting contained in the Form LM–30. Those sections following § 404.5 in the proposed regulation are re-numbered accordingly; (2) language has been added to § 404.2 to require reports from a labor organization officer or employee who holds or has held an interest in or derived income or economic benefit from a business any part of which consists of dealing with a trust in which his labor organization is interested; (3) certain minor editorial changes are also effected in § 404.2.

Therefore, pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003), and under the authority of sections 202 and 208 of the Labor-Management Reporting and Disclosure Act of 1959 (73 Stat. 525, 529; 29 U.S.C. 432, 438), Secretary's Order No. 24–63 (28 F.R. 9172), and Secretary's Order No. 25–63 (28 F.R. 9173), Subchapter A, Chapter IV, Title 29, Code of Federal Regulations, is hereby amended by adding thereto a new Part 404. This amendment shall become effective 30 days after publication in the FEDERAL REGISTER.

Part 404 shall read as follows:

Sec.

404.1 Definitions.
404.2 Annual report.
404.3 Form of annual report.
404.4 Special report.
404.5 Attorney-client communications exempted.

§ 404.2 Annual report.

Every labor organization officer and employee who in any fiscal year has been involved in transactions of the type described in section 202(a) of the Act, or who holds or has held any interest in an employer or a business of the type referred to therein, or who has received any payments of the type referred to in that section, or who holds or has held an interest in or derived income or economic benefit with monetary value from a business any part of which consists of dealing with a trust in which his labor organization is interested, or whose spouse or minor child has been involved in such transactions, holds or has held any such interests, or has received such payments, is required to file with the Director, Office of Labor-Management and Welfare-Pension Reports, United States Department of Labor, Washington 25, D.C., within 90 days after the end of his fiscal year, a signed report containing the detailed information required therein by section 202(a) of the Act.

§ 404.3 Form of annual report.

On and after the effective date of this section, every labor organization officer and employee required to file an annual report under § 404.2 shall file such report on United States Department of Labor Form LM–30 entitled "Labor Organization Officer and Employee Report," together with a true copy thereof, in the detail required by the instructions accompanying such form and constituting a part thereof.

§ 404.5 Attorney-client communications exempted.

Nothing contained in this part shall be construed to require an attorney who is a member in good standing of the bar of any state, to include in any report required to be filed pursuant to the provisions of section 202(a) of the Act and of this part any information which was lawfully communicated to such attorney by any of his clients in the course of a legitimate attorney-client relationship.

§ 404.6 Personal responsibility of signatories of reports.

Every labor organization officer or employee required to file a report under section 202(a) of the Act and under this part shall be personally responsible for the filing of such report and for any statement contained therein which he knows to be false.

§ 404.7 Maintenance and retention of records.

Every person required to file any report under this part shall maintain records on the matters required to be reported which will provide in sufficient detail the necessary basic information and data from which the documents filed with the Director, Office of Labor-Management and Welfare-Pension Reports may be verified, explained or clarified, and checked for accuracy and completeness, and shall include vouchers, worksheets, receipts, and applicable resolutions, and shall keep such records available for examination for a period of not less than five years after the filing of the documents based on the information which they contain.

As presently contemplated the amendment would:

1. Change paragraphs (d), (e), (r), (s), and (v) of § 729.1412 to read as follows:

(d) *Current year.* The calendar year for which acreage allotments are being established, or peanut history acreage and normal yields are being determined, or the farm is being considered under the provisions of the marketing quota program.

(e) *Director.* The Director or Acting Director of the Farmer Programs Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture.

(r) *New farm.* A farm for which a peanut allotment is established in the current year and for which there is no peanut history acreage under the provisions of § 729.1424 in the base period.

(s) *Old farm.* A farm for which there is peanut history acreage under the provisions of § 729.1424 in one or more years of the base period.

(v) *Quota peanuts.* The actual production of peanuts on the effective farm allotment.

2. Delete § 729.1423 and amend §§ 729.1425 (c) and (d) and 729.1429 to remove the provisions for a tillable acreage factor and its use in making upward and downward adjustments in allotments for old farms and when allotments for new farms are established.

3. Amend § 729.1424(c)(2) to provide peanut history acreage credit for acreage diverted from the production of peanuts under the provisions of a Cropland Conversion Program Agreement. (16 U.S.C. 590p(e); 28 F.R. 1206)

4. Amend § 729.1430 to provide that history will be canceled for a new farm if the allotment established for the farm is canceled.

5. Change the letter "(a)" where it appears in § 729.1433(b) to "(b)".

6. Revise § 729.1434(c) to change the date of the beginning of the normal planting season for peanuts in Florida from February 15 to March 15.

7. Add to § 729.1435(a) relating to the release of acreage allotments to provide:

(1) Acreage allotments may not be released (i) from new farms, (ii) from farms owned by the Federal Government or any agency thereof if there is in effect a lease or operating agreement prohibiting the production of peanuts, (iii) for the current year, if the owner of the farm notifies the county committee in writing, before acreage is released by the operator, that he objects to such a release, and (iv) from the allotment pool if an application for transfer from the pool has been filed.

(2) If the entire acreage allotment for a farm is permanently released, the farm shall not be eligible for a new farm peanut allotment if the farm was credited with peanut history acreage in the base period used in the determination of the current year acreage allotment.

8. Amend § 729.1435(b) to provide that any allotment acreage released from a farm for which a Cropland Conversion Program Agreement is in effect, or has been applied for, shall not be reapportioned to any other farm.

9. Delete references in §§ 729.1450, 729.1466 and 729.1471(b)2 to seed shelling card, revise §§ 729.1454(a) and 729.1475, and delete §§ 729.1445(c), 729.1446(e) and 729.1476 to eliminate the requirement that seed shellers identify peanuts shelled for producers for seed.

10. Amend the second sentence of § 729.1455(b) to add to the factors which may be taken into consideration the normal yield for other farms in the locality which are similar with respect to soil and other physical factors affecting the production of peanuts.

FEDERAL AVIATION AGENCY

[14 CFR Part 71 [New]]

[Airspace Docket No. 63-SW-39]

CONTROL ZONE, CONTROL AREA EXTENSION AND TRANSITION AREA

Proposed Alteration, Designations and Revocation

Notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

The following controlled airspace is presently designated in the Roswell, N. Mex., terminal area:

1. The Roswell control zone is designated as that airspace within a 15-mile radius of Roswell radio range and within 2 miles either side of the Roswell VOR 220° and 297° True radials extending from the 15-mile radius zone to 10 miles southwest and northwest of the VOR.

2. The Roswell control area extension is designated as that airspace within a 45-mile radius of Walker AFB, Roswell, N. Mex., including the airspace within 5 miles either side of the Carlsbad, N. Mex., VOR 330° True radial extending from the Carlsbad VOR to its INT with the Roswell 45-mile radius area.

The FAA, having completed a comprehensive review of the terminal airspace structure requirements in the Roswell area, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/60-29, has under consideration the following airspace actions:

1. Alter the Roswell control zone by redesignating it as that airspace within a 5-mile radius of Roswell Municipal Airport (latitude 33°24'20" N., longitude 104°32'55" W.); within 2 miles each side of the Roswell VOR 039° True radial, extending from the 5-mile radius zone to the VOR, and within 2 miles each side of the Walker AFB, Roswell, N. Mex., VOR 262° True radial, extending from the 5-mile radius zone to the VOR, excluding the portion south of a direct line extending from the Walker VOR to the Roswell VOR.

2. Designate the Roswell (Walker AFB) control zone as that airspace within a 5-mile radius of Walker AFB (latitude 33°18'05" N., longitude 104°31'20" W.); within 2 miles SE and 3 miles NW of the Walker VOR 225° True radial, extending from the 5-mile radius

zone to the VOR; within 2 miles each side of the extended centerline of Runway 17, extending from the 5-mile radius zone to 5 miles south of the lift-off end of Runway 17; within 2 miles each side of the Walker TACAN 228° True radial, extending from the 5-mile radius zone to 7.5 miles southwest of the TACAN, and within 2 miles each side of the Roswell VOR 117° True radial, extending from the 5-mile radius zone to the VOR, excluding the portions north of a direct line extending from the Roswell VOR to the Walker VOR.

3. Revoke the Roswell control area extension and designate the Roswell transition area as that airspace extending upward from the 700 feet above the surface bounded by a line beginning at:

latitude 33°06'00" N., longitude 104°50'00" W. to latitude 33°23'00" N., longitude 104°-50'00" W., to latitude 33°34'00" N., longitude 104°40'00" W., to latitude 33°34'00" N., longitude 104°25'00" W., to latitude 33°37'-00" N., longitude 104°20'00" W., to latitude 33°26'00" N., longitude 104°07'00" W., to latitude 33°09'00" N., longitude 104°12'00" W., to latitude 33°02'00" N., longitude 104°-30'00" W.,

to point of beginning; that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at

latitude 32°40'38" N., longitude 104°58'25" W., to latitude 32°50'40" N., longitude 105°-15'00" W., to latitude 32°58'00" N., longitude 105°09'00" W., to latitude 33°41'30" N., longitude 105°09'00" W.

thence clockwise via the arc of a 45-mile radius circle centered on Walker AFB, Roswell, New Mexico (latitude 33°18'05" N., longitude 104°31'20" W.) to latitude 33°32'00" N., longitude 103°47'35" W., to latitude 33°04'00" N., longitude 103°-48'00" W.; thence clockwise via the arc of a 45-mile radius circle centered on Walker AFB to latitude 32°44'00" N., longitude 104°54'20" W., thence to point of beginning; and that airspace extending upward from 8,500 feet MSL within 5 miles each side of the Roswell VOR 350° True radial, extending from the 45-mile radius area to 63 miles north of the Roswell VOR; within 5 miles each side of the Walker AFB TACAN 348° True radial, extending from the 45-mile radius area to 67 miles north of the Walker TACAN; within 5 miles each side of the Roswell VOR 007° True radial, extending from the 45-mile radius area to 69 miles north of the Roswell VOR; within 5 miles each side of the Roswell VOR 060° True radial, extending from the 45-mile radius area to 64 miles northeast of the Roswell VOR; within 5 miles each side of the Walker TACAN 192° True radial, extending from the 45-mile radius area to 63 miles south of the Walker TACAN, and within 5 miles each side of the Roswell VOR 186° True radial, extending from the 45-mile radius area to 65 miles south of the Roswell VOR. The portion of this transition area within 5 miles each side of the Roswell VOR 060° True radial, extending from the 45-mile radius area to 64 miles northeast would be excluded from Federal airways.

The floors of the airways that traverse the transition area proposed herein would automatically coincide with the floors of the transition area.

As presently designated, the operations for the Roswell Municipal Airport and Walker AFB are governed by weather observations reported by Walker AFB. Since weather, communications and control tower services are available at both airports, it is deemed advisable to propose the designation of separate control zones to obtain maximum operational capabilities at Walker AFB and Roswell Municipal Airports. The portions of the presently designated control zone and control zone extensions beyond the limits of those proposed for designation herein would no longer be required for air traffic control purposes. The control zone extensions proposed for designation herein would provide protection for aircraft executing prescribed instrument approach and departure procedures at Walker AFB and Roswell Municipal Airports. The portion of the Roswell transition area proposed with a floor of 700 feet above the surface would provide protection for aircraft executing prescribed instrument approach, departure and radar vectoring procedures at the Walker AFB and Roswell Municipal Airports. The floors of controlled airspace beyond the limits of the proposed 700-foot floor area would be raised from 700 to 1,200 feet above the surface and the controlled airspace released would become available for other aeronautical purposes. The portions of controlled airspace retained, together with the additional portions provided for designation herein, would provide protection for aircraft executing prescribed holding, approach, departure, missed approach and radar vectoring procedures within the Roswell terminal area. Certain minor revisions to prescribed instrument procedures would accompany the actions proposed herein, but operational complexities would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected.

Specific details of the changes in procedures and minimum instrument flight rules altitudes that would be required may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Southwest Region, Federal Aviation Agency, P.O. Box 1689, Fort Worth, Tex., 76101.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth, Texas, 76101. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington, D.C., 20553. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A-103, 1711 New York Avenue NW., Washington, D.C., 20553. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on September 16, 1963.

H. B. HELSTROM,
Acting Chief,
Airspace Utilization Division.

CONTROL ZONE, TRANSITION AREA, AND CONTROL AREA EXTENSION

Proposed Designation and Revocation

Notice is hereby given that the Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

The following controlled airspace is presently designated in the Victoria, Tex., terminal area:

1. The Alice, Tex., control area extension is designated as that airspace within 5 miles each side of a direct line extending from the Alice VOR to the Cotulla, Tex., VOR and within a 35-mile radius of the Alice VOR, excluding the portion which coincides with Restricted Area R-6301.

2. The Corpus Christi, Tex., control area extension is designated, in part, as that airspace north of Corpus Christi bounded on the southeast by V-20, on the southwest by V-68, on the northwest by the arc of a 60-mile circle centered on the San Antonio, Tex., radio beacon, on the north by latitude 29°-00'00" N., and on the northeast by the arc of a 25-mile circle centered at latitude 28°51'00" N., longitude 96°55'00" W.

3. The Houston, Tex., control area extension is designated, in part, as that airspace within the arc of a 25-mile radius circle centered at latitude 28°-44'45" N., longitude 96°17'00" W., to latitude 28°55'00" N., longitude 96°-38'45" W.; thence northeast to latitude 29°58'30" N., longitude 95°58'30" W.

The FAA, having completed a comprehensive review of the terminal airspace structure requirements in the Victoria area, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/60-29, has under consideration the following airspace actions:

1. Designate the Victoria control zone as that airspace within a 5-mile radius of the Victoria County-Foster Airport (latitude 28°51'10" N., longitude 96°-55'20" W.) and within 2 miles each side of the 320° True bearing from latitude 28°51'30" N., longitude 96°55'00" W., extending from the 5-mile radius zone to 8 miles northwest of latitude 28°-51'30" N., longitude 96°55'00" W., effective from 0600 to 0000 hours, local time, daily. This would provide protection for aircraft executing prescribed instrument approach and departure procedures at the Victoria County-Foster Airport.

Communications within the proposed control zone would be provided by the Palacios, Tex., FAA Flight Service Station; daily weather service would be provided by the U.S. Weather Bureau from 0600 to 2200 hours local time and by personnel of Trans Texas Airways from 2200 to 0000 hours local time.

2. Revoke the Victoria control area extension and designate the Victoria transition area. The proposed transition area would be designated as that airspace extending upward from 700 feet above the surface within 8 miles southwest and 5 miles northeast of the Victoria VOR 313° True radial, extending from the VOR to 12 miles northwest; within 8 miles southwest and 5 miles northeast of the 324° True bearing from latitude 28°51'30" N., longitude 96°55'00" W., extending from latitude 28°51'30" N., longitude 96°55'00" W. to 12 miles northwest; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 29°00'00" N., longitude 97°17'00" W.; to latitude 29°08'00" N., longitude 97°00'00" W.; to latitude 28°52'50" N., longitude 96°28'30" W.; to latitude 28°47'25" N., longitude 96°35'20" W.; to latitude 28°43'40" N., longitude 96°28'00" W.; thence southwest via the north boundary of V–20 to longitude 97°05'00" W.; to point of beginning. This would provide protection for aircraft executing prescribed instrument holding, approach and departure procedures at the Victoria County-Foster Airport. Communications service within the proposed transition area would be provided by the Palacios FAA Flight Service Station and through remote communications facilities controlled by the San Antonio, Tex., ARTC Center.

The floors of the airways which traverse the transition area proposed herein and the floor of the portions of the Alice, Corpus Christi and Houston control area extensions which coincide with the proposed transition area would automatically assume a floor coincident with the floors of the transition area. Revocation of the aforementioned control area extensions will be processed at a later date as a part of the CAR Amendments 60–21/60–29 implementation programs proposed for the respective areas.

Certain minor revisions to prescribed instrument procedures would be effected in conjunction with the actions proposed herein, but operational complexities would not be increased nor would aircraft performance characteristics or present landing minimums be adversely affected.

Specific details of the changes to procedures and minimum instrument flight rules altitudes that would be required may by examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Southwest Region, Federal Aviation Agency, P.O. Box 1689, Fort Worth, Tex., 76101.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth, Texas, 76101. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington, D.C., 20553. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

[Airspace Docket No. 63–CE–74]

TRANSITION AREA

Proposed Designation

Notice is hereby given that the Federal Aviation Agency (FAA) is considering an amendment to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

To implement the provisions of CAR Amendments 60–21/60–29 in the Pratt, Kans., terminal area, the FAA has under consideration the designation of a transition area at Pratt. The proposed transition area will be designated to comprise that airspace extending upward from 700 feet above the surface within a 6-mile radius of Pratt Municipal Airport (latitude 37°42'10" N., longitude 98°44'55" W.), within 2 miles each side of the 352° True bearing from the Pratt Municipal Airport, extending from the 6-mile radius area to 8 miles north of the airport; and that airspace extending upward from 1,200 feet above the surface within 5 miles east and 8 miles west of the 352° True bearing from the Pratt Municipal Airport, extending from the airport to 12 miles north of the airport, within 5 miles each side of the 352° True bearing from Pratt Municipal Airport, extending from the airport to 17 miles north of the airport, and within 5 miles each side of the 272° True bearing from Pratt Municipal Airport, extending from the airport to 8 miles west of the airport.

The floors of the airways that traverse the transition area proposed herein would automatically assume floors coincident with the floors to be established for the transition area.

The establishment of a transition area at Pratt would raise the floor of controlled airspace beyond the immediate vicinity of the Pratt Municipal Airport from 700 to 1,200 feet above the surface. The controlled airspace released would become available for other aeronautical purposes. The portions retained would provide protection for aircraft executing prescribed instrument holding, transition, arrival, approach, missed approach and radar vectoring procedures prescribed within the Pratt terminal area.

Communications within the proposed transition area is currently available through the facilities of the FAA's Hutchinson, Kans., Flight Service Station and the remote air/ground communication facilities of the Kansas City Air Route Traffic Control Center which are located at Hutchinson. The radar vectoring of en route aircraft in the Pratt terminal area is conducted from the Kansas City Air Route Traffic Control Center's long-range radar outlet located near Hutchinson.

The existing Pratt Municipal Airport ADF instrument approach procedure would not require revision as a result of the action proposed. Specific details of the changes to minimum instrument flight rules altitudes that would be required may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Central Region, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington, D.C., 20553. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the

record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A–103, 1711 New York Avenue NW., Washington, D.C., 20553. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on September 16, 1963.

H. B. HELSTROM,
Acting Chief,
Airspace Utilization Division.

THE SECRETARY OF COMMERCE

PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE

Washington 25, D.C.
September 12, 1963.

COMMISSIONER OF CUSTOMS,
DEPARTMENT OF THE TREASURY,
Washington, D.C.

DEAR MR. COMMISSIONER: This letter supplements my letter to you of July 17, 1963, appearing in the FEDERAL REGISTER on August 1, 1963 (28 F.R. 7862), regarding restraints on imports of cotton textiles and cotton textile products in Categories 5 and 6, produced or manufactured in Poland. As you were advised in that letter, the United States Government on July 15, 1963, in furtherance of the objectives of, and under the terms of, the Long Term Arrangement Regarding International Trade done at Geneva on February 9, 1962, requested the Government of Poland to restrain the export of cotton textiles and cotton textile products in Categories 5 and 6 to the United States during the twelve-month period beginning July 15, 1963. The period of discusion with the Government of Poland on the restraint request made by the United States, carried out under the terms of Article 3(3) of the Long Term Arrangement, will expire on September 13, 1963.

Accordingly, under the terms of the Long Term Arrangement, including Article 6 relating to non-participants, and in accordance with the procedures outlined in Executive Order 11052 of September 28, 1962, you are directed to prohibit, effective immediately upon the expiration of the directive contained in my letter to you of July 17, 1963, referred to above, and for the period extending through July 14, 1964, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 5 and 6, produced or manufactured in Poland, in excess of the corrected levels of restraint provided:

Category	12-month level of restraint	Corrected level of restraint
	Square yards	*Square yards*
5	100,000	100,000
6	100,000	100,000

There have been no entries during the period July 15, 1963, to date.

In carrying out this directive, you shall allow entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 5 and 6, produced or manufactured in Poland, when such goods have been exported to the United States from Poland prior to July 15, 1963, regardless of whether the restraint levels have been filled, and such goods, exported to the United States from Poland prior to July 15, 1963, are not to be counted against the restraint level even if not filled at the time of entry.

A detailed description of the listed categories in terms of Schedule A numbers and U.S.I.D.A. numbers was attached to my letter of July 17, 1963, referred to above. (See revised category list of Sept. 1, 1963.)

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Poland and with respect to imports of cotton textiles and cotton textile products from Poland have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of Section 4 of the Administrative Procedure Act. You are requested to publish this letter in the FEDERAL REGISTER.

Sincerely yours,

FRANKLIN D. ROOSEVELT, Jr.,
Acting Secretary of Commerce, and Acting Chairman, President's Cabinet Textile Advisory Committee.

Minimum Rates and Charges Between Jacksonville and Puerto Rico

It appearing, that there have been filed with the Federal Maritime Commission tariff schedules naming new minimum rates and charges applying between Jacksonville, Florida and Puerto Rico to become effective September 7, 1963, designated as follows:

SEA-LAND SERVICE, INC., PUERTO RICAN DIVISION

Outward Freight Tariff No. 2, FMC–F No. 3 (Pan-Atlantic Steamship Corporation FMC–F Series).
13th Revised Page 30–F (Item No. 37).

and

Homeward Freight Tariff No. 4, FMC–F No. 2 (Pan-Atlantic Steamship Corporation FMC–F Series).
11th Revised Page 12 (Item 3–A).

and

It further appearing, that upon consideration of the said schedules, there is reason to believe that the said rates and charges, if permitted to become effective, would result in rates, charges, regulations, and/or practices which would be unjust, unreasonable, or otherwise unlawful in violation of the Shipping Act, 1916, as amended, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that, the Commission is of the opinion that the new tariff provisions should be made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable, or otherwise unlawful under the Shipping Act, 1916, as amended or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that the effective date of the said provisions should be suspended pending such investigation;

Now therefore it is ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of the proposed new minimum rates and charges contained in the said schedules,

with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That Item No. 37 on 13th Revised Page 30–F, Tariff FMC–F No. 3 (Pan-Atlantic Steamship Corporation FMC–F Series) and Item 3–A on 11th Revised Page 12, FMC–F No. 2 (Pan-Atlantic Steamship Corporation FMC–F Series) be and they are hereby suspended and that the use thereof be deferred to and including January 6, 1964, unless otherwise authorized by the Commission, and that the rates, fares, charges, rules, regulations and/or practices heretofore in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension; and

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs unless otherwise authorized by the Commission; and

FEDERAL AVIATION AGENCY

[OE Docket No. 63–WE–4]

MICHAEL H. RADER

Determination of Hazard to Air Navigation

The Federal Aviation Agency has circularized the following proposal for aeronautical comment and has conducted a study (4–OE–2570) to determine its effect upon the safe and efficient utilization of navigable airspace.

Michael H. Rader, Inglewood, California, proposes to construct a 22-unit, two-story, multiple dwelling structure on the south side of Thunderbird Road near the intersection of Thunderbird and Wichita Roads in Apple Valley, California. The overall height of the structure would be 2938 feet above mean sea level (19 feet above ground).

The proposed structure would be located near the midpoint and 185 feet north of the centerline of the east/west runway, Runway 7/25, of the Apple Valley Airport, 132 feet from the nearest edge of the runway. At this location it would exceed the standards for determining hazards to air navigation as defined in § 77.27(c)(3)(ii) by 17 feet.

The aeronautical study disclosed that strong thermal winds of a type common to desert areas, frequently occur at the Apple Valley Airport. The relatively high velocity, gusty character and variable direction of this type of wind has resulted in several aircraft accidents.

Aircraft encountering this condition while landing or taking off on Runway 7 or 25 and losing directional control of their aircraft would be unable to maneuver to avoid colliding with the proposed structure. The study further disclosed that aircraft accidents caused by thermal winds which resulted in the loss of directional control have occurred in close proximity to the proposed structure.

Based on the aeronautical study, it is the finding of the Agency that the proposed structure would create an unsafe obstruction which would derogate the safety of aircraft landing on Runway 7 or 25 at the Apple Valley Airport.

Therefore, pursuant to the authority delegated to me by the Administrator (§ 77.37 [New]), it is found that the proposed structure would have a substantial adverse effect upon the safe and efficient utilization of navigable airspace; and it is hereby determined that the proposed structure would be a hazard to air navigation.

This determination is effective and will become final 30 days after the date of issuance unless an appeal is filed under § 77.39 [New] (27 F.R. 10352). If the appeal is denied, the determination will then become final as of the date of the denial or 30 days after the issuance of the determination whichever is later.

Issued in Washington, D.C., on September 16, 1963.

JOSEPH VIVARI,
Acting Chief,
Obstruction Evaluation Branch.

PUBLIC PAPERS OF THE PRESIDENTS OF THE UNITED STATES

John F. Kennedy, 1962

Contains verbatim transcripts of the President's news conferences and speeches and full texts of messages to Congress and other materials released by the White House during the period January 1–December 31, 1962.

Among the 557 items in the book are: special messages to the Congress on education, national health needs, and foreign aid; reports to the American people concerning the state of the national economy, nuclear testing and disarmament, and the Cuban crisis; joint statements with leaders of foreign governments; and a special interview with representatives of the radio and television networks in which the President reviewed some of the highlights of his first 2 years in office.
